

### REMARKS/ARGUMENTS

In the Office Action mailed March 10, 2009, the drawings are objected to for including solid black shading. In response, replacement sheets for Figs. 1, 2 and 3 are attached from which objectionable shading has been removed.

Claims in the application, which appear in Applicant's Preliminary Amendment filed with the application, received an objection and have been rejected under 35 U.S.C. §112. Claim 21 has been amended to correct a spelling. The claims subject to the §112 rejection have been amended to provide antecedence and correct informalities suggesting the claims may be indefinite.

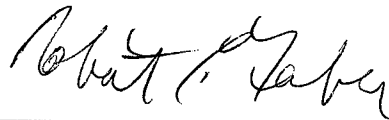

Further, on review of the claims, they have been amended to improve their form the United States practice, without altering their substance and without introducing new matter.

The allowability of the claims subject to their correction to overcome the objection and rejection is noted and appreciated. Allowance of claims 1-21 is requested.

Respectfully submitted,
